

We've talked a lot about how we can improve policing for Black people. It's time for action.

West Yorkshire Police is delivering a Police Race Action Plan to improve outcomes for Black people who work with or interact with the police.

The Police Race Action Plan will help ensure Black people feel **Represented, Not over-policed, Involved** and **Protected**.

The plan is focussed on Black people, but our learning will benefit all under-represented groups in society.

A Race Action Plan to ensure Black people in West Yorkshire feel safe and supported.
